SOURCE

One of the two shipyards in Rostock works on section construction of
submarines. The sections are made in Koenigsberg and shipped to
Rostock where FAN (Motorenwerk Augsburg-Muernberg) diesel motors are
installed. Eighteen submarine sections have been delivered to
Rostock since the beginning of 1950. Of this number, six were
delivered in the month of August.

25X1A

☐ Comment. Although the information seems unlikely, it is
forwarded since a similar report was received some months ago. It
is possible that the informants confused section construction of
other kinds of vessels with submarine sections. Nevertheless, the
Leptun Werft in Rostock did build submarine sections for the German
Navy.

This document is hereby regraded to
CONFIDENTIAL in accordance with the
letter of 16 October 1978 from the
Director of Central Intelligence to the
Archivist of the United States.
